Legacy. How do we preserve it?

The fifth Forum of the European Capital of Culture takes place in the midst of the long-awaited cultural programme, on the weekend of the second act of the great Contemporary Myth of Kaunas Trilogy. While we look forward to the most dynamic season of the programme, the year of the Capital of Culture in Kaunas is approaching the finish line. What should the Kaunas city and Kaunas region expect after 2022? Will the cultural life continue in the same rhythm? What can we do today to ensure the continuity of the communities' and artists' initiatives? Answers and solutions will be sought in the usual way for the Kaunas 2022 programme – through collaboration and by involving in the discussion the participants, creators and partners of the Capital of Culture programme, and researchers.

How will we preserve the Europe's freedom? A special session of the Forum will be dedicated to the war in Ukraine. The latest developments and the tools available to help Ukraine will be discussed in the conversation with Kaunas 2022 partner, the Lviv Cultural Strategy Institute.

The European Capital of Culture Forum is just the first step towards a great weekend of 'The Confluence'. We kindly invite you to spend it in Kaunas:

The European Capital of Culture Forum will symbolically begin the 'The Confluence' - the second main event in the Contemporary Myth of Kaunas Trilogy. May 20–22 Kaunas city and Kaunas district will be filled with concerts, exhibitions, Courtyard Festival, etc. The entire weekend will feature shows by acrobats, contemporary circus performers, river excursions, and musical tours to river towns and settlements in Kaunas. The public will be invited to the unveiling of Nemuno7, an environmental design project that is unique in the European context. During those days there will be a chance to meet the Mythical Beast of Kaunas from much more close.
