

## UBC Safe Cities Commission meeting in Hamburg, Germany

**13-15 December 2022**

To create safe cities for our inhabitants and visitors, there are many crucial points to address. This time, when we meet in the new UBC member city – Hamburg, the main topics of the UBC Safe Cities Commission meeting will be Local early warning system, education about safety for practitioners and a study visit through the city of Hamburg where we will see their solutions to create a better and safer environment for all people.

As we in the UBC Safe Cities Commission work in a collaborative way and exchange our experiences to become safer together, we invite partners from UBC member cities to provide their input about their experiences during this time.

Please fill in the registration form for the UBC Safe Cities Commission meeting by 7 November 2022 – <https://forms.gle/8HcH5xZW4i9fYMqK7>
