

## Civil protection challenges for cities concerning the war in Ukraine!

### UBC Safe Cities Commission meeting in Tartu, Estonia

**June 1-3, 2022**

Civil protection is the most actual topic at the moment to ensure safe cities and it would be useful to share experiences, what different cities / municipalities / states have done to rise their resilience and resistance. There will be a keynote presentation from Estonian Rescue Board about the civil protection challenges and activities in Estonia. As we in the UBC Safe Cities Commission work in a collaborative way and exchange our experiences to become better together, we invite partners from UBC member cities to provide their input about their experiences during this time.

In the last day of the meeting, there will be a study visit to Humanitarian aid center for Ukrainian refugees in Tartu, as well as to AS Tartu Veevärk (drinking water and wastewater management company as a vital service provider).

Please fill in the registration form for the UBC Safe Cities Commission meeting by May 25, 2022 - <https://forms.gle/XnTXDmqcodr7qGRR7>
